EXPERIENCE

Bireena Info Tech

Feb 2026 – Present

Software Developer Intern | Bhilai, Chhattisgarh (Remote)

- Developed and deployed a full-stack cloud-based accounting platform with secure JWT authentication, GST invoicing, and real-time financial reporting, reducing manual entry errors by 40%.
- Engineered RESTful APIs using Node.js and Express.js to handle multi-user financial operations, improving backend response time by 35%.
- Integrated MongoDB with optimized schema design to support concurrent multi-user transactions at scale.
- Built React.js frontend with modular, reusable components for Invoice, Ledger, and GST Filing modules, improving UI load speed by 30%.

PROJECTS

AI Study Buddy

[GITHUB](#) – [LIVE](#) – [DEMO](#)

- Designed an AI-powered study assistant using Google Gemini API that answers academic queries, generates summaries, and provides personalized learning support.
- Built a responsive UI with real-time chat, error handling, and smooth async data updates for a seamless user experience.
- Integrated Firebase Authentication and Firestore for secure login, session management, and personalized chat history.

BiReenaTallyX — Accounting Software

[GITHUB](#) – [LIVE](#) – [DEMO](#)

- Built a full-stack accounting software with shortcut-key-driven UI, making it faster than Tally, Zoho & Mocha.
- Designed keyboard-first UI/UX — no mouse needed, reducing data entry time by 60% vs traditional accounting tools.
- Engineered role-based access for CAs, accountants & business owners — zero training required.
- Developed core modules: Invoice, Ledger, GST Filing, Trial Balance, P&L, Balance Sheet — all shortcut-key accessible.
- Deployed as a web-based SaaS solution — no local installation needed, unlike Tally ERP.
